SUMMARY

Information System graduate from Institut Teknologi Kalimantan with hands-on experience in web development and UI/UX design. Completed internships at PT Komatsu Remanufacturing Asia, developing an Employee Information System serving 700+ employees. Strong collaborator with proven teamwork experience from working with cross-functional Agile teams and mentoring students as a Teaching Assistant.

EDUCATION

Institut Teknologi Kalimantan Balikpapan, Indonesia
Bachelor of Computer Science *Aug 2022 — Apr 2025*
- Cumulative GPA: 3.59/4.0

WORK EXPERIENCE

Information Technology Infrastructure Engineer Apr 2026 — Present
Maybank *Balikpapan, Indonesia*
- Resolved an average of 125+ IT service requests per month across 3 branch offices, maintaining a 100% resolution rate for 100+ employees.
- Managed a growing ticket volume independently, troubleshooting core banking application issues (DBDS, DCIF, MTREX), network connectivity, and hardware provisioning across all supported branches.
- Led branch renovation, relocation, and network recabling projects, including full LAN infrastructure work across multiple sites
- Monitored and maintained critical server room infrastructure (UPS, fire detection, temperature/humidity) and security systems to ensure zero downtime.
- Installed and configured core banking application environments, PCs, pinpads, and multifunction devices for new and relocated workstations.

Web Developer Intern Jul 2025 — Feb 2026
PT Komatsu Remanufacturing Asia *Balikpapan, Indonesia*
- Developed the web-based Employee Information System (EIS) using Laravel, Blade, Tailwind CSS, and Livewire, extending access to employees without mobile access.
- Implemented responsive interfaces for core EIS workflows, including Attendance, Reimbursement, Time Management, and approval processes.
- Translated business requirements and UI/UX designs into functional frontend interfaces while collaborating with cross-functional teams in an Agile environment.

UI/UX Design Intern Jan 2025 — Jun 2025
PT Komatsu Remanufacturing Asia *Balikpapan, Indonesia*
- Designed mobile and web interfaces for Employee Information System (EIS) supporting 700+ employees across departments
- Applied the Design Sprint methodology to transform user needs and stakeholder requirements into validated UI/UX solutions for Reimbursement, Time Management, Assignment Letter, and Attendance features.
- Created user flows, wireframes, and high-fidelity prototypes using Figma for Attendance (Face Recognition), Reimbursement, and Time Management features
- Achieved a 100% task completion rate in usability testing with 17 respondents, with a Time-Based Efficiency score of 0.03686 goals/sec and Excellent UEQ results across all evaluated dimensions.

Teaching Assistant Jan 2024 — Dec 2025
Institut Teknologi Kalimantan *Balikpapan, Indonesia*
- Taught programming fundamentals across multiple courses: Basic Algorithm (Python), Basic Programming (JavaScript), OOP (PHP), Web Development (Laravel), and Cloud Computing (Laravel + Docker).
- Instructed networking concepts including IP addressing, subnetting, routing, and VLAN configuration using Cisco Packet Tracer.
- Guided students in Ubuntu Operating System, covering Linux commands and system management.
- Provided hands-on sessions, feedback on assignments, and conducted evaluations to monitor student progress.

ORGANIZATIONAL EXPERIENCE

Environment Division - GenBi Balikpapan May 2024 — May 2025
- Organized environmental awareness campaigns and community events
- Collaborated with team members on sustainability initiatives

Staff of Student Welfare Department - Himpunan Mahasiswa Sistem Informasi ITK Aug 2023 — Aug 2024
- Coordinated student welfare programs and events
- Supported fellow students with academic and personal development activities
